

MESSAGE FROM THE PRESIDENT

Welcome to this year's Convention hosted by the City of Campbell River. We last held our Convention in the Salmon Capital in 2002, and it's a pleasure to return. Thank you to the Campbell River Council for inviting us back.

We are pleased to have UBCM President Murry Krause address the gathering on Friday afternoon, as well as sustainability expert Chris Turner as our keynote speaker. Other plenary presentations include Responsible Conduct for Local Government Officials, Tools for Defending Your

Community from Invasive Species, and Physical Literacy. Delegates will also have an opportunity on Saturday afternoon to choose from concurrent workshops on Marine Spill Response, Open Space - Health Networks, Abandoned Vessels, and Forestry Management.

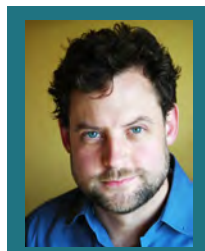

The majority of Saturday morning will be spent debating resolutions. We are continuing to include the Resolution Committee's Comments and Recommendations Report in the Annual Report and Resolutions Book. We have also made the background information received from members available, and hope this information is helpful to promote productive sessions as we debate the issues important to our region.

Our program is designed to ensure you have ample opportunity to learn, share your views and network with your colleagues. We don't often get the chance to get away from daily pressures to meet with other local government colleagues who can relate to the issues we each face in our communities. It's not all about work. We hope you enjoy the social events too. We have a Welcome Reception planned for Friday evening, and Saturday's banquet will include a generous buffet with entertainment after dinner from the Fabulous Mutts band. Come ready to dance!

As always sponsors play an important part in our Convention. Without their support, we would not be able to provide such a high quality experience for our delegates. We thank them for their continued participation. We also have a Trade Show with information and expertise relevant to your roles. Please take the time to visit, and see how the Exhibitors can help your community.

KEYNOTE SPEAKER: Chris Turner

Vancouver Island's Place in the Global Energy Transition

Drawing on his bestselling sustainability books *The Leap* and *The Geography of Hope* as well as the most recent developments, Chris Turner will provide a guided tour of the energy transition now well underway worldwide. From the global state of the art in green energy and grid design to community-scale opportunities for innovation in urban design and energy efficiency, Turner's presentation paints an optimistic portrait of Vancouver Island's -- and all of Canada's -- energy future.

Chris Turner is one of Canada's leading writers and speakers on sustainability and the global green economy. He draws on recent breakthroughs in state-of-the art renewable energy and urban design to paint a vivid portrait of a new, sustainable world order that will allow individuals and businesses alike not only to survive but to thrive in the twenty-first century economy.

SATURDAY MORNING WORKING HOT BREAKFAST

Representatives from the ICF, Southern Rail and Seaspan will be presenting." [ICF Draft Plan](#)

PLENARY PRESENTATIONS

Responsible Conduct of Local Government Elected Officials (Friday)

The issue of questionable conduct is an emerging policy area for local governments in BC and across the country. The issue is multi-faceted and includes elements of education, advice, investigation and enforcement. Due to the complex nature of this subject matter, UBCM, the Ministry of Community, Sport and Cultural Development, and the Local Government Management Association of BC have formed a working group to examine responsible conduct of local government elected officials. The working group will conduct an analysis and undertake policy work on this issue, and that work will inform UBCM Executive's policy paper for consideration of members at the 2017 UBCM Convention. This session will provide an update on the work of the committee to date.

Special Committee on Solid Waste Management (Saturday)

Edwin Grieve, Chair of the AVICC Special Committee on Solid Waste Management, will update delegates on the work of the special committee in 2016-17 including the updated work plan for 2017-18.

Tools for Defending Your Community from Invasive Species (Sunday)

Local governments are applying tools (e.g. legislative, tech-savvy, educational and collaborative) and working with the Coastal Invasive Species Committee and Broombusters to take an active role in reducing the negative impact of invasive species in their communities. Emphasized are the CowVRD (Giant Hogweed Bylaw), RDN and Comox VRD (Knot on My Property Program), PRRD (Burn Boss and more!), MWRD (Knotweed Partnership) and Campbell River (Invasive Plant Free Seedy Sunday). Highlighted is the 10-year partnership between the Town of Qualicum Beach and volunteers of Broombusters, which has made the town almost Scotch broom free! They will tell you how your community can do it too.

What is Physical Literacy and Why is it Important? (Sunday)

Physical activity is a lot more fun when you are physically literate. Now more than ever, physical literacy is being recognized as an important component of best practices in the sport, recreation, health and education sectors within Canada. This session will provide an overview of how physical literacy can be a key component in getting a community more physically active and healthier!

Abandoned Vessels: How Will Federal Legislation Support Local Solutions?

Ladysmith Harbour's long term high profile fight to remove abandoned vessels got a big win last fall with the \$1.2 million Coast Guard removal of the 100' trawler Viki Lyne 2. But, thousands of abandoned vessels remain across Canada. Member of Parliament and former AVICC member Sheila Malcolmson, Stz'uminus Chief John Elliot, Ladysmith Mayor Aaron Stone, and Ladysmith Maritime Society Managing Director Rod Smith will discuss how federal abandoned vessel legislation could have saved them a four year fight, and update AVICC members on how federal legislation could prevent further risks and support local communities.

Presenters: Sheila Malcolmson, MP, Nanaimo; John Elliot, Stz'uminus Chief;
Aaron Stone, Mayor, City of Ladysmith; and Rod Smith, Ladysmith Maritime Society

Open Space Workshop – Health Networks

Open Space is an interactive opportunity for convention delegates to seize control of the agenda and talk about the topics that matter to them - the intention is to stimulate conversations on General Community Health in a format that includes participation from Local Governments and attending Health Network Coordinators. Topics to be chosen by delegates.

Facilitator: AVICC Director & Alberni-Clayoquot Regional Director Penny Cote

Recent Developments in Marine Spill Response on the West Coast

Oil spill preparedness has recently been the subject of significant scrutiny on the West Coast. This interest has been triggered by the announcements and subsequent review of projects that would result in increased shipping traffic along the coast of B.C. In addition, the federal government has recently undertaken a significant review of the national spill response regime that will ultimately result in an important shift in how spill preparedness and response occurs in Canada. Peter Ellis will discuss how Clear Seas Centre for Responsible Marine Shipping seeks to promote safe and sustainable marine shipping in Canada by providing impartial information to policy makers and the public. He will provide an overview of the organization and its programme. Michael Lowry will discuss how Western Canada Marine Response is preparing to meet the challenges of providing marine spill response within the changing risk and regulatory environment. He will discuss new initiatives in spill response mapping, planning and response capacity.

Presenters: Peter Ellis, Executive Director, Clear Seas Centre for Responsible Marine Shipping and
Michael Lowry, Manager Communications, Western Canada Marine Response Corp

CANDIDATES FOR EXECUTIVE, CONTINUED

FOR DIRECTOR AT LARGE (3 POSITIONS AVAILABLE)

Alberni-Clayoquot Regional District Director Penny Cote

Penny was first elected as the Sproat Lake Electoral Area Director on the Alberni-Clayoquot Regional District (ACRD) in 2005 after years of volunteering with the Sproat Lake Community Association on community safety and water quality issues.

Now into her 4th consecutive term on the ACRD with many appointed positions served, including the ACRD Vice-Chair, Alberni-Clayoquot Regional Hospital District Chair, and the Alberni-Clayoquot Health Network Chair. Penny is an active participant working for positive local government decision-making and action through local partnerships, including the inaugural 4 Treaty First Nations to the ACRD. 2016 Penny was elected as AVICC Executive Director at Large.

Penny believes that respectful collaboration within all our individual communities at every level of government is vital to improve the outcomes for the challenges we all face.

Finding and connecting those affordable and sustainable opportunities to address the health and related needs, in a safe and supported environment, that thread through all services is work that is rewarding and is making a positive difference.

Cowichan Valley Regional District Director Ian Morrison

My name is Ian Morrison. I'm married to Brenda and we are proud parents of Rhianon, who attends Lake Cowichan School in grade twelve. We moved to Victoria in 1982 and then to Mill Bay, before making Honeymoon Bay our home, some twenty years ago.

My career, prior to Local Government, was in financial services. I advanced to become a Branch Manager and was involved in volunteering and serving my community. Today I continue to serve clients as a Licensed Mutual Fund Representative.

In the summer of 2008 a community member from Mesachie Lake phoned to inform me our CVRD Director was retiring that fall, and he asked me to consider putting my name on the ballot. I made the decision to run and comfortably won a three candidate race. I've been acclaimed twice since.

As a Director on the Cowichan Valley Regional District, I've served and/or chaired committees responsible for services from Treaty to Transit and Watersheds to Waste. In 2015, I was Chair of the CVRD's Regional Engineering Services Committee, and was appointed as our Regional District's representative on the AVICC's Special Committee on Solid Waste Management. I continue to serve the CVRD on the Special Committee on Solid Waste today.

Serving a second year as Chair of the CVRD's Electoral Area Services Committee, I will bring a strong Electoral Area/Regional District perspective and work ethic to AVICC's Executive. I respectfully ask for your support.

District of Saanich Councillor Colin Plant

Colin is a Councillor in the District of Saanich and a Director on the Capital Regional District board. In addition to his political work, he is also a high school Drama teacher. He has four sons, one friendly cat, and an amazingly supportive wife.

Colin would like to serve on the AVICC to help address and advance the issues that our communities deem important. Having an executive comprised of members from throughout the AVICC is also important. Despite living in the island's

largest municipality, he grew up in the small interior community of Sicamous and understands the challenges small communities face. Additionally, Saanich is a municipality that faces both rural and urban issues, much like the AVICC itself.

In his current role for the District of Saanich Colin chairs the Healthy Saanich Committee and serves on the Personnel Committee. He also chaired the Saanich LGBTQ committee in 2016.

In his role as a CRD Director he is Chair of the CRD Arts Commission. He also chairs the CRD Traffic Safety Commission and is on the CRD Governance, Finance and Core Area Liquid Waste Management committees.

His educational background includes a Master's Degree in Leadership, and bachelor degrees in Theatre and Education. He has been a classroom teacher for 15 years. He has come to learn that sometimes the political and educational environments are surprisingly similar. It would be a privilege to serve the AVICC membership.
