Resolutions resumed at 10:25 am with President Grieve in the Chair with Director Cote, 1st Vice President Jensen and 2nd Vice President Morrison.

R17) Recovering Municipal Costs Arising from Climate Change  City of Victoria

WHEREAS local governments are incurring substantial costs in relation to the impacts of climate change, including volatile weather patterns, drought, wildfires, erosion and other impacts;

AND WHEREAS it is fiscally prudent to recover these costs from corporations that have profited from the burning of fossil fuels, with knowledge that these economic activities contribute to climate change:

THEREFORE BE IT RESOLVED that UBCM explore the initiation of a class action lawsuit on behalf of member local governments to recover costs arising from climate change from major fossil fuels corporations;

AND BE IT FURTHER RESOLVED that the Province of British Columbia consider legislation to support local governments in recovering costs arising from climate change from major fossil fuel corporations.

ON MOTION, was not ENDORSED

R18) Cave Protection Act  Village of Tahsis

WHEREAS caves are uncommon and unique environments that can harbour rare and threatened species, unique mineralogy and sediments, First Nation heritage values; and are non-renewable, site-specific landscape features with natural, cultural, spiritual, aesthetic and scientific value;

AND WHEREAS caves are sensitive ecosystems that can underlie developed landscapes and as such are vulnerable to pollution, destruction by quarrying, vandalism, mismanagement, species extinction and general degradation caused by human activities:

THEREFORE BE IT RESOLVED that the Provincial Government should pass a Cave Protection Act in order to conserve caves, in perpetuity.

R19) Shifting Investment to Low-Emission Transportation  City of Victoria

WHEREAS the Prime Minister of Canada and the Premiers of BC and most provinces signed the Pan-Canadian Framework on Clean Growth and Climate Change in 2016, endorsing a policy shift that could substantially reduce greenhouse gas (GHG) pollution from transportation while funding public transit improvements, including inter-city and commuter bus and rail service;

AND WHEREAS the transportation sector is the second-largest contributor of GHG pollution in Canada, representing 23% of total emissions:

THEREFORE BE IT RESOLVED that local governments call on the Governments of Canada and British Columbia to fully implement their commitment in the Pan-Canadian Framework on Clean Growth and Climate Change, to shift investments “from higher to lower-emitting types of transportation”.

ON MOTION, was ENDORSED

R20) Promoting and Enabling GHG Reductions  City of Victoria

WHEREAS the world’s leading climate scientists have warned that we have less than 12 years to meet our climate targets, and early action is required to avoid significant costs and impacts to social and environmental well-being in our communities, and worldwide, local governments are uniquely positioned to enable this mobilisation effort, in a coordinated and integrated fashion across sectors, enabling individual action with timely and accurate information, incentives, directions, coordination, tools, targets and scalable, impactful programs;

AND WHEREAS local governments GHG reduction plans will be effectively and expeditiously realised through a dedicated focus on cutting the most impactful GHG sources, including: retrofitting existing buildings to high-efficiency standards; renewable electricity; elimination of fossil fuel heating sources; shifting people to transit, active transportation, and renewably powered mobility options; and the electrification of commercial and passenger vehicle fleets, the complexity and pace/progress of GHG reductions in both local governments and community require additional resources and planning to reduce risks of missing interim and longer GHG and renewable energy targets:

THEREFORE BE IT RESOLVED that local governments call on the Governments of Canada and British Columbia to pursue the following immediate sector actions to promote and enable GHG reductions and realize important social and economic co-benefits:

1. Make available all ICBC municipal vehicle km/make/model/fuel economy information.
2. Continue the development and implementation of world-class low carbon fuel standards.
3. Fully invest in delivery of the zero-emission vehicles sales targets as established in the CleanBC Plan.
4. Continue progressive and direct funding programs and partnerships for municipal low-carbon initiatives, including building retrofit, transportation, waste management and other priority and shared GHG reduction programs.

LAND USE

R21) Cannabis and Farm Use Activities  City of Nanaimo

WHEREAS the Agricultural Land Commission Act states "farm use" means an occupation or use of land for farm purposes, including farming of land, plants and animals and any other similar activity designated as farm use by regulation, and includes a farm operation as defined in the Farm Practices Protection (Right to Farm) Act;
AND WHEREAS the Agricultural Land Reserve Use, Subdivision and Procedure Regulation (the ALR Regulation) has differentiated the lawful production of cannabis from other "farm use" by limiting the structures for production, and narrowing the definition of ‘necessary' activities under section 2(3), unlike any other crop in British Columbia:

THEREFORE, BE IT RESOLVED that the AVICC request the provincial government to amend the ALR Regulation so that the lawful production of cannabis aligns with the growing structures and site development measures available for all other crops. More specifically, placing limits on the unique concrete structure growing method initially targeted for regulation to all crops. Thus enabling cannabis, when grown as any other crop, to be deemed a “farm use”, as defined in the Agricultural Land Commission Act and a "farm operation" under the Farm Practices Protection (Right to Farm) Act. Circumscribing cannabis production in structures that are lawful by regulation for all other crops, may not withstand judicial review.

RESOLUTION WITHDRAWN

R22) Cannabis Plants on the Agricultural Land Reserve City of Nanaimo

WHEREAS the Agricultural Land Commission Act states "farm use" means an occupation or use of land for farm purposes, including farming of land, plants and animals and any other similar activity designated as farm use by regulation, and includes a farm operation as defined in the Farm Practices Protection (Right to Farm) Act;

AND WHEREAS the Agricultural Land Reserve Use, Subdivision and Procedure Regulation (the ALR Regulation) has differentiated the lawful production of cannabis from other “farm use” by limiting the structures for production, and narrowing the definition of ‘necessary' activities under section 2(3), unlike any other crop in British Columbia:

THEREFORE, BE IT RESOLVED that the AVICC request the provincial government to amend the ALR Regulation in order to clarify the interpretation of section 2(2.5) of the ALR Regulation regarding the lawful production of cannabis “inside a structure (a) that has a base consisting entirely of soil”, and clarify that when producing cannabis in a greenhouse, it has the same meaning as “Greenhouse” under section 2(o)(i) of the Regulation. Circumscribing cannabis production in structures that are lawful by regulation for all other crops, may not withstand judicial review.

AND BE IT FURTHER RESOLVED THAT the AVICC request the provincial government to amend the ALR Regulation section 2(2.5) to resemble something like the following:

(2.5) The lawful production of cannabis is designated as farm use for the purposes of the Act if produced outdoors in a field or inside a structure
(a) which has a base consisting entirely of soil, and
   (i) that is moveable in nature; or
   (ii) on a helical pile foundation; or
   (iii) whose base does not create irreversible damage to the soil.

ON MOTION, was ENDORSED

R23) Low Impact Foundation Systems for Farm Use Structures City of Nanaimo

WHEREAS the structural use of concrete as a foundation system and associated fill is known to cause irreparable damage to soil biology and render a site unfit for soil-based crops in the future, and low-impact, low carbon, removable foundation technologies are available as a new standard for agricultural structure foundations;

AND WHEREAS the Agricultural Land Commission Act, and the Agricultural Land Reserve Use, Subdivision and Procedure Regulation (the ALR Regulation) regulate “farm use” structures on the agricultural land reserve (ALR) and the deposit of fill is considered a farm use for all activities under sections 2(1) to (2.2), and does not
require notification to the ALR except under limited circumstances, and the National Farm Building Code applies to all agricultural “farm use” structures;

THEREFORE, BE IT RESOLVED that the AVICC request the provincial government to encourage the use of low carbon, low impact, cement-free foundation technologies for farm use structures and buildings within the ALR, thereby reducing the deposition of fill material and elimination of arable soil capability in the long term.

ON MOTION, was ENDORSED

R24) Retrofitting of Structures to Reduce Impact of New Construction City of Nanaimo

WHEREAS the Agricultural Land Commission Act, and the Agricultural Land Reserve Use, Subdivision and Procedure Regulation (the ALR Regulation) Section 2(2.5)(b) has limited cannabis production to existing structures which were previously utilized for crop production, or were under continuous production prior to the regulatory change, eliminating the ability to convert non-crop or other structures within the Agricultural Land Reserve (ALR);

AND WHEREAS the Cannabis Act and Regulations require “good production practices” that create hygienic conditions for the cultivation and production of cannabis, and existing structures are available for federally compliant conversion, which would strengthen municipal 2018 BC Building Code oversight, reduce the pressure for new construction, and facilitate contribution to the local and BC Economy:

THEREFORE, BE IT RESOLVED that the AVICC request the provincial government to amend the ALR Regulation to allow for the retrofitting of existing non-residential structures on the ALR for cannabis production.

HEALTH

R25) Canada Health Transfers Town of Qualicum Beach

WHEREAS seniors account for 47% of Canada’s healthcare spending while comprising 17% of our country’s population;

WHEREAS the next decade is set to see a 93-billion-dollar increase in healthcare spending in Canada as a result of our aging population;

WHEREAS mid-island communities can expect per capita increases in healthcare costs owing to demographics in roughly the following amounts: Qualicum Beach: 77%, Parksville: 53%, Courtenay: 19%, Nanaimo: 12.5%, and Campbell River: 7%;

WHEREAS seniors comprise 52.1% of the population of Qualicum Beach and 23.3% of the population for Vancouver Island and the Coast;

WHEREAS demographic data was removed as a consideration for determining health transfer payment amounts by the federal government in 2012 and is presently not factored into health transfers, despite the fact there is a 444% variance in per capita healthcare spending on seniors relative to the rest of the population:

THEREFORE BE IT RESOLVED that the AVICC lobby the provincial and federal ministries of health to have demographics included in determining each province’s funding through Canada Health Transfers.

ON MOTION, as amended, was ENDORSED

R26) Safer Drug Supply to Save Lives City of Victoria
WHEREAS It has been two years since B.C. declared a public-health emergency due to increased overdoses, yet the death toll for those consuming substances continues to rise due to an unpredictable and highly-toxic drug supply;

AND WHEREAS people with opioid use disorder, a chronic relapsing medical condition, are at high risk of overdose-related harms including death and an estimated 42,200 people inject toxic substances in British Columbia, it is not possible for the treatment system to rapidly increase services fast enough to manage this number of people as “patients” within a medical treatment model given the many challenges in achieving and retaining the people on opioid use disorder treatment, people at risk of overdose in British Columbia do not have access to a safer alternative to the unpredictable, highly-toxic drug supply:

THEREFORE BE IT RESOLVED that in an effort to save lives and reduce harm due to an unpredictable and highly-toxic drug supply, and as part of a holistic response to the public-health emergency, including prevention, treatment, and recovery, that the Province of British Columbia work with local communities, Health Authorities across the Province, the Ministry of Mental Health and Addictions, and the Ministry of Health ensure that people at risk of overdose harm have access to safer alternatives.

ON MOTION, was ENDORSED

R27) Observed Inhalation Sites for Overdose Prevention

WHEREAS British Columbia is currently experiencing an unprecedented public health emergency due to an unpredictable and highly-toxic drug supply, and smoking or inhalation is the second most common mode of consumption among all people who have died from a suspected illicit drug overdose and the most common mode of consumption among men and those between the ages of 15 and 29;

AND WHEREAS observed consumption services (i.e. supervised consumption services and overdose prevention services) are evidence-based harm reduction approaches shown to reduce overdose-related harm, and there is not adequate access to observed consumption services that provide space for inhalation where communities are facing crisis:

THEREFORE BE IT RESOLVED THAT to ensure that people at risk of overdose across BC have access to observed consumption services that provide space for inhalation, that the Province of British Columbia fund and work through local communities, Health Authorities across the Province, the Ministry of Mental Health and Addictions and the Ministry of Health to provide these services as part of a holistic response to the public-health emergency, including prevention, treatment, and recovery.

SELECTED ISSUES

R28) Canada Post’s Neighbourhood Mail

WHEREAS Canada Post’s Neighbourhood Mail (unaddressed bulk mail) was a cost effective program that allowed local governments and regional districts to mail notices to residents within their boundary;

AND WHEREAS changes to the program now see unaddressed bulk mail going to “precision targeted areas” that are no longer aligned with local government and regional district boundaries;

AND WHEREAS the changes result in properties outside of the local government receiving unaddressed bulk mail that are not relevant to them, and to higher costs for local governments and regional districts conducting these mail outs:

THEREFORE BE IT RESOLVED that AVICC and UBCM urge Canada Post to continue to allow neighbourhood mail (unaddressed bulk mail) to be delivered only to properties within the local government and regional district boundary.

ON MOTION, was ENDORSED
R29) Review of Resolutions Procedures  
City of Campbell River

WHEREAS the volume of resolutions admitted for debate from each area association, various local governments and the UBCM Executive, is excessive and does not provide time for wholesome debate on the UBCM convention floor;

AND WHEREAS the vetting of resolutions is inadequate and leads to a lack of rational, structured arguments to present a compelling case for government to act:

THEREFORE BE IT RESOLVED that UBCM conduct a thorough audit and review of its resolutions procedures to ensure that the resolutions on the floor of the UBCM convention are reduced in number, repetition and are focused on priority use.

R32) Extension of Vacancy Taxation Authority to Local Governments  

WHEREAS the Province of British Columbia responded to a housing affordability crisis in 2016 with legislation empowering the City of Vancouver to introduce a surtax on vacant residential properties, resulting in $38-million in revenues for that community in 2018 and creating a strong disincentive to leaving properties vacant;

AND WHEREAS communities across British Columbia face housing affordability pressures, while a portion of the housing supply in all communities remains vacant, including properties that have remained derelict for years or decades, and vacant and derelict buildings pose substantial risks in terms of public safety in communities, as well as liveability and desirability for nearby and adjoining neighbourhoods and properties:

THEREFORE BE IT RESOLVED that the Province of British Columbia extend the authority to introduce a surtax on vacant residential properties to local governments across British Columbia, providing communities with the discretion to decide whether to introduce an additional tax to discourage vacant and derelict buildings, and encourage the occupancy, maintenance, and improvement of buildings to address housing affordability and public safety.

WHEREAS single-use disposable products, whether they are recyclable or not, must be manufactured, handled and then disposed of which is not always done in the proper waste stream;

AND WHEREAS all petroleum plastic disposable products are derived from fossil fuels which increases carbon emissions in the atmosphere, and all plastic products created never “go away”;

AND WHEREAS the “compostable” or “biodegradable” disposable products are not accepted at all composting facilities and can contaminate the recycling stream by being confused with recyclable plastic products;

AND WHEREAS the costs (both known and unaccounted for) associated with these disposable “products of convenience”, should be borne by the manufacturers, the distributors and the retailers who are creating the products and then handing them out to consumers, would create an environment of responsibility and awareness by assigning an environmental handling fee to these products which is dispersed to local government responsible for financing solid waste and recycling;

THEREFORE BE IT RESOLVED that the AVICC/UBCM request the Province of British Columbia to engage with retailers, manufacturers and industry to implement an environmental fee for all single use plastic products and packaged goods, (including compostable and biodegradable) entering the British Columbia market place to incentivize reduction, to help subsidize regional solid waste management programs, and to take action towards creating a Provincial Single-Use Item Reduction Strategy as part of a Provincial Zero Waste Strategy.

R45) Regulate and Enforce Vehicle Parking on Provincial Roads

WHEREAS regional districts have not been granted the authority to regulate vehicle parking on roadways in rural areas;

health, including reductions in behavioural and emotional problems; improve cognitive skills and increase scholastic success:

THEREFORE BE IT RESOLVED that UBCM advocate to the provincial government for a Universal Healthy School Food Program that will enable all students in BC to have access to healthy meals at school, building on existing programs and including food education to serve culturally appropriate, local, sustainable food to the fullest extent possible.

AND WHEREAS 4/5 of the herring fisheries have already been closed due to poor returns, with the last remaining fishery being located around Hornby and Denman Islands;

L3) Increase Provincial RCMP Contribution City of Colwood

WHEREAS British Columbia Municipalities may jointly participate in RCMP/Policing to cost-effectively manage community safety in their region with the Province providing funding to each Municipality based on population;

AND WHEREAS the 2018 West Shore RCMP General Duty Service Assessment has identified that the current 81 officer detachment needs to be bolstered by 9 officers immediately and another 4 by 2023 with the current
share contributed by the Province providing 40% fewer officers per capita, equating to an approximate $720,000 short fall, forcing some municipalities to contribute more than their equitable share;

AND WHEREAS the Province does not hesitate to force a municipality to hire additional officers when it determines that the Municipality requires them to meet the needs of the community, as was the case for the City of Victoria this year:

THEREFORE BE IT RESOLVED that the Province immediately increase their contribution for the provincial component of RCMP funding to meet the immediate and projected service needs for the communities they serve where a General Duty Service Assessment has identified a short fall.

RESOLUTIONS OFF THE FLOOR

On motion, duly moved and seconded, that the resolution titled “Subsidies to Fossil Fuel Companies” distributed to members in attendance be admitted for debate was endorsed.

OF1) Subsidies to Fossil Fuel Companies City of Victoria

WHEREAS the Federal government recently released a scientific report that reveals that Canada is warming at twice the global rate, the Provincial government recently approved a $5.35-billion package of tax incentives for a $40-billion LNG Canada megaproject, supported by $1.275 billion from the Federal government, and, according to a 2015 report by the International Monetary Fund, the annual Federal government subsidy to the fossil fuel industry is $46 billion;

AND WHEREAS the funding formula for local governments has changed little since 1867 with local governments receiving roughly 8 cents of every tax dollar leaving them unprepared for the emerging and significant costs of mitigation and adaption to climate change;

THEREFORE BE IT RESOLVED that UBCM call on the Provincial government to end all subsidies to fossil fuel companies and to invest the money instead in climate change mitigation and adaptation activities being undertaken by local governments in a predictable and regularized funding formula;

AND BE IT FURTHER RESOLVED that the UBCM through the FCM call on the Federal government to end all subsidies to fossil fuel companies and to invest the money instead in climate change mitigation and adaptation activities being undertaken by local governments in a predictable and regularized funding formula.

WELCOME
I would like to welcome everybody to Powell River for the Association of Vancouver Island and Coastal Communities’ 70th Convention and Annual General Meeting. I would especially like to welcome our many newly elected officials who are attending for the first time. I’m sure you will all enjoy the program our staff and Executive have put together for this year’s event. Over the next three days there will be resolutions, presentations, panel discussions and, of course, time for socializing, networking and making contacts and establishing new friendships.

It should be stated AVICC is not an arm of local government but rather a Society whose membership happens to be made up of local government elected officials. We are your professional organization dedicated to addressing the needs, concerns and challenges we all face in our day-to-day lives in community service.

Resolutions endorsed this weekend are brought forward to the Union of BC Municipalities who, in turn, advocates with senior levels of government on your behalf. As the AVICC President I have the privilege this year of being your representative on the UBCM Executive. Other AVICC members on the Executive include UBCM First Vice-President, Mayor Maja Tait from the District of Sooke, Director at Large, Director Travis Hall from the Central Coast Regional District, and Director at Large, Councillor Claire Moglove from the City of Campbell River. We are all very lucky to have such capable and dedicated representation on UBCM from our region.

I would like to mention some of our members serving on committees and boards starting with our own AVICC Director at Large, Director Penny Cote from Alberni-Clayoquot Regional District who sits as our representative on the Board of the Municipal Insurance Association of BC.

Another member, Mayor Josie Osborne from the District of Tofino, represents AVICC on the Federal Government’s “Southern Resident Killer Whale Indigenous and Multi-Stakeholder Advisory Group.” Josie has a degree in Marine Biology and she brings her expertise and experience as well as a coastal local government perspective to that table. We thank her for reporting out to the Executive at our Executive meeting in December.

A newly elected member, Director Daniel Arbour from the Comox Valley Regional District, has been nominated to represent our Association on DFO’s “Aquaculture Management Advisory Committee (AMAC)” for Shellfish. Daniel is the representative for Area A in the Comox Valley which boasts the largest shellfish industry in western Canada. The DFO group meets in April and Daniel is here looking for options and input from AVICC members.

I would be remiss if I did not mention former Director Ian Winn from the Sunshine Coast Regional District who served with great dignity and ability in the role of AVICC Electoral Area Representative. Ian has retired from public life and we wish him and his family all the best.

Replacing Ian as the interim Electoral Area Representative is Director Vanessa Craig from the Regional District of Nanaimo. Welcome Vanessa, and thank you for facilitating the Electoral Area Forum that will be held on Saturday afternoon.

RESOLUTIONS
At the convention last year in Victoria, the membership discussed and endorsed many resolutions including:
ER2 AVICC Special Committee on Solid Waste Management
This Special Committee was formed in 2015 with representation from staff and elected officials from 9 Regional Districts to address collaboration, common strategies, synergies and economies related to solid waste management over the AVICC area. At the 2018 convention the membership reaffirmed support for the areas of work that include: Partnership; Advocacy; Long Term Disposal; Regulation and Enforcement.

Of these directives the most challenging has been the “Advocacy” bullet that speaks to engagement with the BC Ministry of Environment. Although there was some initial dialogue, the Provincial election cycle and ensuing change of government required a reintroduction of the conversation and re-establishing of relationships.

At the UBCM Ministers meetings in Whistler last September, Committee representatives met with the Honourable George Heyman, Minister of Environment and his staff. The Ministry has now committed to having Provincial staff participation at the staff committee level. In January the Ministry staff presented to the CAO/Technical Group on the Ministry’s “Love Food-Hate Waste” campaign.

The Special Committee’s Communications campaign called “Recycle Right - At Home” was developed collaboratively by the participating RD communications staff, and features five videos that are being released, one a week, this Spring.

R8 Climate Accountability for Fossil Fuel Companies
Letters were sent to 20 of the world’s largest fossil fuel companies outlining the types of costs that local governments are incurring and expecting to incur due to climate change, and requesting that corporations pay their fair share of those impacts on local governments. These letters were shared with the federal Minister of Environment and Climate Change, Catherine McKenna and the provincial Minister of Environment, George Heyman.

West Coast Environmental Law helped prepare the letters and, to date, AVICC has received responses from Shell Canada and BHP in Australia. This was in addition to some colourful unsolicited emails from citizens of Alberta and an interview from a reporter from the Globe and Mail. AVICC also received a letter of response from Minister McKenna’s office.

R11 BC Ferries Medical Priority Loading
This was a resolution about modifying the BC Ferries Travel Assistance Programme (TAP) to allow assured loading for patients travelling for treatment and care. The resolution was referred to the Executive to confirm how the current system operates.

Representatives from BC Ferries met with the AVICC Executive to clarify the policy and process. Karen Tindall, Director Customer Care and Stephen Nussbaum, Superintendent Customer Service and Operational Standards described how a patient’s doctor can apply for a “Medical Assured Loading” letter (MAL). Separately, the BC Ministry of Health offers a “Travel Assistance Program” (TAP) that is designed to help alleviate some costs for BC citizens who must travel within the Province for services. BC Ferries has now included information on the MAL program on their website. Details of the programs and the presentation are available in the October 26, 2018 minutes on the AVICC website at https://avicca.ca/wp-content/uploads/2019/03/2018-10-26-AVICC-Minutes-Final.pdf

R19 Active Transportation Infrastructure
R20 Cycling Infrastructure Funding
Advocacy on these resolutions included a meeting in May between five Regional Chairs and Minister Trevena in Victoria to discuss the Vancouver Island Master Transportation Plan, MoTI contracts and active Transportation Corridors. A further follow up meeting was held with the Minister in September at the UBCM Ministerial meetings in Whistler. The release of the Provincial budget in February shows...
deeper commitment by the Province for these Transportation initiatives. Under the AVICC, RD senior staff are currently working with MoTI to draft MOUs to allow construction and maintenance of active transportation corridors adjacent to provincial roads.

CONVENTION POLICIES
As the President, I presented to two sessions in Parksville at the Local Government Leadership Academy (LGLA) to let newly elected members know about AVICC (who we are and what we do) and to give an overview of the resolutions process.

Following the 2018 convention and input from members, the AVICC Executive reviewed and updated the resolutions process to be in line with UBCM practice. The Executive this year has brought forward new policies that make some changes in the way “late resolutions” and “off the floor” resolutions can be brought forward to the convention floor. Instead of requiring 75% “super majority” vote to accept a late or off the floor resolution for debate, the threshold has been reduced to 60%.

Also, resolutions supporting existing UBCM policy are grouped together and moved as a “Block.” The threshold to remove a resolution from “the Block” for debate or amendments now only requires a simple 50+1% majority to separate it from the “Block.” Members may only move to remove a resolution from the block if they wish to speak in opposition or propose an amendment to the resolution.

Also, in keeping with current best practice, is the new AVICC “Code of Conduct.” AVICC is committed to providing a safe and respectful environment for all its members and we celebrate diversity in all its forms. By registering for the convention delegates have agreed to the Code of Conduct.

The AVICC Executive has also established Gold Star Criteria for the best written resolution with an award to be given out at this year’s convention. As we regularly receive many resolutions (over 50 this year) the quality of which can vary wildly, the Executive has initiated a “gold star resolution” award to encourage the submissions of resolutions that are fact based, clear, concise and well thought out. It is incumbent on the submitting local government and their staff to author the best package that they can in hopes that they can bring home the “Gold Star.”

AVICC LUNCH AT UBCM
The Annual AVICC lunch affords our membership an opportunity to get together every year at the Union of BC Municipalities Convention in September. Last year the convention was hosted in Whistler. In addition to our members, many MLAs and MPs from the area were present. BC Premier, John Horgan and Deputy Premier, Carole James also joined us with Premier Horgan giving a short address to the attendees.

Also honoured at the lunch with a lifetime membership was Past President Barbara Price. I’m sure everyone joins me in congratulating her and gives a heartfelt thanks to Barbara for her commitment and contributions to the AVICC and to local government as both a councillor and a regional district director.

AVICC INSURANCE
This year the Executive initiated a full year insurance policy for the Society. We have researched and implemented the new annual insurance policies for CGL and D&O to ensure continued good management and protection of the Association.

AVICC AUDIT
Much discussion was had as the Executive researched different alternatives for financial reporting including the “Notice of Reader” model and moving to an audit every two years. We obtained quotes
from large and small firms, and decided to stay with an annual audit with KPMG. It was felt that a proper audit every year would bring the greatest transparency and ensure the confidence of the AVICC Membership.

CHANGES TO CANADA REVENUE AGENCY REGULATIONS

Due to changes in regulations, discussion was had on how best to update the per diem payments to the Executive to reflect preparation time for meetings and to account for the change in CRA policy. New regulations require 100% of compensation to be reported as income. The Executive adjusted the per diem payments to take the new regulations into account.

MEMORANDUM OF UNDERSTANDING

In an acknowledgement of the importance of the forestry sector to the Island and Coastal Communities, we are in discussions with the Council of Forest Industries (COFI) on extending the MOU signed a few years ago between Coast Forest Products Association and AVICC. Coast Forest Products Association has now been absorbed into the bigger association. COFI is province wide and has planned a reception for AVICC members at this year’s convention to give our members an opportunity to get to know COFI.

MEMBERSHIP, FINANCIAL AND ADMINISTRATION

- 100% membership has been maintained
- AVICC continues to enjoy a solid financial position
- AVICC has a five-year Contract for Services with UBCM, and continues to benefit from a strong relationship with UBCM staff

IN SUMMARY

The work of AVICC over the 2018-2019 term was a tribute to the great team and staff of the Association.

We look forward to serving our members through 2019-20 and welcome your input.

Financial Statements of

ASSOCIATION OF VANCOUVER
ISLAND AND COASTAL COMMUNITIES

Year ended December 31, 2018
INDEPENDENT AUDITORS' REPORT

To the Members of Association of Vancouver Island and Coastal Communities

Opinion

We have audited the financial statements of Association of Vancouver Island and Coastal Communities (the Entity), which comprise:

- the statement of financial position as at December 31, 2018
- the statement of operations and changes in net assets for the year then ended
- the statement of cash flows for the year then ended
- and notes to the financial statements, including a summary of significant accounting policies

(Hereinafter referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Entity as at December 31, 2018, and its results of operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the "Auditors' Responsibilities for the Audit of the Financial Statements" section of our auditors' report.

We are independent of the Entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged With Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Those charged with Governance are responsible for overseeing the Entity's financial reporting process.

**Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

  The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Entity to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
• Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

As required by the Societies Act (British Columbia), we report that, in our opinion, the accounting policies applied in preparing and presenting financial statements in accordance with Canadian accounting standards for not-for-profit organizations have been applied on a basis consistent with that of the preceding period.

See accompanying notes to financial statements.
Nature of operations:

Association of Vancouver Island and Coastal Communities (the "Association") is incorporated under the Society Act (British Columbia) and is exempt from the requirement to pay income taxes. Its purpose is to promote autonomy within local government and to advance the principles of local government. The Association represents the various municipalities and regional districts of Vancouver Island, Powell River and the Sunshine and Central Coasts. On November 28, 2016, the new Societies Act (British Columbia) became effective. On May 9, 2018, the Association transitioned to the new Act.

1. Significant accounting policies:

These financial statements are prepared in accordance with Canadian Accounting Standards for Not-For-Profit Organizations ("ASNPO") in Part III of the CPA Canada Handbook. The Association's significant accounting policies are as follows:

(a) Basis of presentation:

These financial statements present the financial position, results of operations and changes in net assets of the Association and, as such, do not include all the assets, liabilities, revenue and expenses of the members of the Association.

There is no provision in the accounts for income taxes as the activities of the Association are conducted on a not-for-profit basis.

(b) Cash and cash equivalents:

Cash and cash equivalents are defined as cash and highly liquid investments consisting of term deposits with original maturities at the date of purchase of three months or less.

(c) Revenue recognition:

The Association follows the deferral method of accounting for contributions. Restricted contributions are recognized as revenue in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue when received or receivable if the amount received can be reasonably estimated and collection is reasonably assured.

Annual meeting sponsorships, registration and exhibit revenues are recognized as revenue when the conference takes place.

Association dues are recognized as revenue in the year they are earned and collection is reasonably assured.
1. Significant accounting policies (continued):

   (d) Contributed materials and services:

   Due to the difficulty in determining fair value, contributed materials and services are not recognized in the financial statements.

   (e) Financial instruments:

   Financial instruments are recorded at fair value on initial recognition and are subsequently recorded at cost or amortized cost, unless management has elected to carry the instruments at fair value. The Association has not elected to carry any such financial instruments at fair value.

   Financial assets are assessed for impairment on an annual basis at the end of the fiscal year if there are indicators of impairment.

   (f) Capital assets:

   In accordance with the ASNPO Handbook section 4431, *Tangible Capital Assets held by Not-for-profit Organizations*, the Association has met the criteria to be considered a small organization and as such has not capitalized any expenditures. Capital assets owned by the Association but which have not been capitalized under this accounting policy include computer hardware.

   (g) Use of estimates:

   The preparation of financial statements in conformity with ASNPO requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates.

2. Cash and cash equivalents:

3. Deferred contributions:

Deferred contributions include $44,665 (2017 - $44,665) of provincial grants restricted for the facilitation of the activities of the Treaty Advisory Committee.

Also included in deferred contributions is $12,725 (2017 - $12,725) in contributions restricted for the activities of the Special Committee on Solid Waste Management.

4. Contractual commitments:

The Association has a contract with the Union of British Columbia Municipalities for administrative, office and various support services and has committed to pay $86,820 in 2019 in respect of this contract by way of quarterly payments. The contract term ends on December 31, 2020. The amounts are subject to adjustment each January.
A WARM WELCOME

The qathet Regional District and the City of Powell River welcome the AVICC Convention delegates again this year after last hosting our Convention in 2010. We appreciate the host communities in not only providing a beautiful location in the upper Sunshine Coast, but also all the support and assistance. The 2019 AVICC Convention is sure to be a great opportunity for learning, policy making and networking.

PREMIER JOHN HORGAN

We are thrilled to welcome Premier John Horgan to the 2019 AVICC Convention, and look forward to his address to the delegates on Friday.

Born and raised in Victoria, Mr. Horgan was first elected to the Legislature in 2005 as MLA for Juan de Fuca, and has been re-elected three times to ridings in the region. He became leader of the BC NDP in 2014, and Premier of BC in 2017.

As a young man, Mr. Horgan worked in a BC mill and in a joinery. He earned his Bachelor’s and Master’s degrees at Trent University in Ontario and Sydney University in Australia. A meeting with Tommy Douglas sparked his interest in social democracy and he went on to work for Members of Parliament in Ottawa. Prior to becoming Premier, Mr. Horgan attended the AVICC Convention each year to address delegates in his role as Leader of the Opposition. We appreciate his continued commitment to the AVICC and support of local governments in our region.

Electoral Area Directors Forum
Saturday, 3:00 – 4:30 pm

The EA Forum has been an annual fixture at the AVICC Convention since 2016. The Forum provides an excellent opportunity to discuss issues that are common to many electoral areas. As an EA Director we may often feel that we are unique in the challenges we might have in our area, but by attending the Forum soon realize that there are many shared issues. What is most important from the Forum is that we can identify paths to advocate to senior governments to effect change and turn our collaboration into action. A louder voice is better heard.

Director Craig sent out a request for directors to suggest topics for discussion and these will be confirmed at the Forum.

Facilitator:  Vanessa Craig, AVICC EA Representative and Nanaimo RD Director
